VOTE BY MAIL IS A SAFE AND SECURE WAY TO VOTE.
How is your vote by mail ballot processed?

• You complete and return a Vote by Mail application.
• The Clerk’s Office enters the returned vote by mail application into the voter registration system.
• The vote by mail ballot packet is then sent to you with detailed instructions.
• You vote your ballot when you are prepared, insert it into the signed certification envelope, and return it in the provided postage paid mailing envelope.
• When the ballot is received, the Clerk’s Office logs the returned envelope in the voter registration system. Once the ballot is marked received, the system prohibits that voter from requesting another vote by mail ballot, or from voting in person, early or on Election Day.
• All vote by mail ballots are kept sealed, in a secured location.
• Teams of three vote by mail processing judges, represented by each political party, work together to open the sealed envelopes, and verify the voters’ signatures on the certification envelopes. The vote by mail judges then process the verified ballots into the Verity Scan.
• Vote by mail processing takes place on Election Day and, if needed, on prior dates. Vote by mail processing dates and times are posted on the County Clerk’s website, and is open to the public.
• After the polls close on Election Day the vote by mail scanned ballots are then tabulated. These results are included in the Election Night results.
• Any valid, late arriving, vote by mail ballots, postmarked by Election Day and received in the Clerk’s Office by November 22nd, are processed by Vote by Mail Processing judges. These results are then added to the final vote totals during the Canvass/Re-Tab, on November 23rd. Election results are certified at that time.

Request to Vote by Mail is easy:
No excuse is needed, anyone can apply to vote by mail! Vote by Mail application may be found at www.grundycountyil.gov, or by calling the Clerk’s Office at 815-941-3222, #1, or email elections@grundycountyil.gov.

Vote by Mail ballots may be returned via US Postal Service, deposited in the Official Ballot Drop box, or hand delivered to the County Clerk’s Office.

The last day to request a ballot by mail is November 3rd, 2022.

EASY • SAFE • SECURE
Let’s talk about . . . ELECTION SECURITY!

The growing threat of cybercrime has been on the minds of many voters. Recently, there have been many questions about the security of the voter data under the care of the election authorities. The Grundy County Clerk’s office is committed to cybersecurity, and the physical security, of all our election data.

There have been many questions and stories about how secure our Elections are and if our elections can be hacked. Unfortunately, there has also been much mis-information spread to deliberately undermine the voter’s confidence in our elections.

Here are facts regarding our election security:

• NONE of the voting equipment in Grundy County is ever connected to the Internet, either in the polling place or in the Clerk’s Office, when votes are being tabulated, or results being processed, meaning they cannot be hacked.

• All voting machines are locked and sealed with numbered security seals, to prevent any type of tampering or system interference. The memory used with the machines only stores election information. No voter information is on the memory.

• All ballots cast have a 100% verified paper trail. Grundy County’s Verity Voting system, is a trusted and proven process, the perfect paper trail with no votes encoded into barcodes, no segregated ballots, redundant storage and completely auditable results. We use a paper ballot, so there is always a back-up. Additionally, once the voting period concludes, Grundy County maintains all records for audit or recount for a set period as required by the State of Illinois.

• All voting machines are put through logic and accuracy testing before every election. This testing is completed with a test deck of ballots being voted on the machines, then tabulated to ensure the machines are tabulating and recording the votes accurately. The public is invited to observe the Public Test.

• Before the polls open on Election Day, election judges confirm that there are zero votes cast at the opening of the polls. They also compare the number of ballots cast to the number of voters processed throughout the day, making sure the vote count to number of voters balance.

• On Election Day, while the polls are open, the Election Judges periodically inspect the equipment and security seals to ensure no tampering has occurred.

• Poll Watchers are allowed to observe Early Voting and Election Day polling locations. They must follow the State of Illinois Poll watcher guidelines, and must surrender their Poll watcher credentials to the election judges at the polling location.
• After the polls close, two election judges, one from each political party, together, return all equipment, ballots and supplies from their polling location, to the Courthouse.

• After the Election, a re-tabulation of selected precincts by the IL State Board of Elections is completed to ensure that the reported results match the ballots cast, and that these results match the results from Election night. The public is invited to attend the Re-Tab/Canvass.

• Grundy County is committed to ensuring that every vote is counted and counted correctly. The County Clerk’s Office has taken cybersecurity seriously, and has taken numerous steps to enhance all security processes, and will continue this effort.

As the election authority for Grundy County, nothing is as important as ensuring that voters have faith and confidence in the security of our elections, knowing that their votes are accurately counted and the integrity of the process will be protected.

Voters are encouraged to call or go directly to the County Clerk’s Office, or to the County Clerk’s website and verified social media pages to ensure voters are getting accurate election information.

VOTER INFORMATION CHANGES

Help keep us up to date with you!

Address Change – Any time you move you have to update your voter registration.

Name Change – If you get married or have a legal name change, you have to update your voter registration.

Signature Change/Update – If your signature has changed dramatically, you will need to update your voter registration.

New Voter Registration Cards were mailed to every voter in the County this spring. State law requires Election Officials to mail new voter cards every two years. This maintenance mailing helps to ensure only valid registrations are listed in our voter files.

All the above helps keep our voter files up to date, and helps your Election Day go smoothly!
To vote, completely darken the box to the LEFT of your choice, like this ☐ . To cast a write-in vote, darken the box to the LEFT of the blank space provided and write the candidate’s name in that space. For specific information, refer to the card of instruction posted in the voting booth. If you tear, spoil, deface or erroneously mark this ballot, return it to the election judge and obtain another.

PROPOSED AMENDMENT TO THE 1970 ILLINOIS CONSTITUTION

EXPLANATION OF AMENDMENT

The proposed amendment would add a new section to the Bill of Rights Article of the Illinois Constitution that would guarantee workers the fundamental right to organize and to bargain collectively and to negotiate wages, hours, and working conditions, and to promote their economic welfare and safety at work. The new amendment would also prohibit from being passed any new law that interferes with, negates, or diminishes the right of employees to organize and bargain collectively over their wages, hours, and other terms and conditions of employment and workplace safety. At the general election to be held on November 8, 2022, you will be called upon to decide whether the proposed amendment should become part of the Illinois Constitution.

The Hart InterCivic Verity paper voting system was successfully rolled out for the June 28, 2022 Primary Election.

The next-generation Verity system is made in the USA and was certified by Illinois this year as meeting the highest election security standards. Verity is safe and secure and is never connected to the internet. Verity allows reliable audits of voter intent with digital captures of all scanned ballots. The system offers automatic counting for write-in votes, and if needed, faster and reliable recounts.
