A. General Information
The County of Grundy is wanting to modify the current Audio and Visual system within the current Public
Board Room, and to enhance the capabilities of the current space. The County of Grundy’s vision is to
improve the board room for public meetings by upgrading the current technological capacity, improvement
shall help to increase efficiencies and functionalities benefiting the team members of Grundy County, the

room environment. Replacement and/or addition of current mobile microphones. Replacement and /or
addition of camera’s used for our streaming setup. Replacement and / or addition to current display
monitors. Replacement and / or addition of monitors within the newly built County Board member

The current audio solution uses hard wired microphones to a control unit connected to a receiver and

previously mentioned items, we would like to have two displays replaced to the board room that can be
used to show the current speaker to the public in attendance.
